

Do you have the Will to help new born babies?

***Your Will can provide
education and protect
mothers against stillbirth and
unexpected infant deaths in
Australia, now and long into the future...***

To continue its work, SIDS and Kids ACT depends almost entirely on the generous support of the local Canberra Community.

A bequest made out to SIDS and Kids ACT will help us find answers, educate and protect against stillbirth and unexpected infant deaths in Australia.

You can join the SIDS and Kids Benevolent Circle and play an integral part in the future work of SIDS and Kids ACT by nominating us as a beneficiary in your will.

***Your Will helps all parents to have a chance
to see their children grow up and enjoy life.***

Bequests to SIDS and Kids may encompass a number of different areas, you can help by;

- **Allocating a specific amount of money, a percentage or items in your will.**
- **Bequeathing a house or land.**
- **Nominating SIDS and Kids—ACT as a beneficiary to an insurance policy.**
- **Establishing a trust fund whereby a principle sum is invested, with the interest earned being donated to the organisation.**
