"Just For A Moment"

(From A Silent Love, Adrienne Ryan)

*Our hands have touched, our paths have crossed
A love is gained, a love is lost
Just for a moment I kissed the face
Of an innocent child I can't replace.*

*Just for a moment a maternal touch
Would say the words that meant do much
A soft caress, the gentle tears
That will make those minutes last for years.*

*Just for a moment, I held your hand
My broken heart in your command
So much to tell you, so little time
Why were you punished, what was the crime?*

*They took part of me when they took you away
As much as I love you, you weren't meant to stay
I gave you a hug that for always must last
As facing the future means leaving the past.*

*Our souls have merged, I live for you
Perhaps I'm living your life too
I will carry on, I can always stand tall
Because just for that moment, I had it all.*
